

Jun 11, 2025 · The world's largest Sand Battery, developed and built by Polar Night Energy in the Finnish municipality of Pornainen for the network operated by district heating company ...

Elisa, a telecommunications firm in Finland, has received EUR3.9 million in funding from the government to create a Virtual Power Plant (VPP) using ...

Feb 22, 2023 · Finnish telecommunications company Elisa has won a EUR3.9m (\$4.16m) grant from the government of Finland to roll out a "Distributed Energy Storage" (DES) solution across its ...

1 hour ago · Polar Night Energy has entered into an agreement with Lahti Energia to build an industrial-scale sand battery, which will integrate into Lahti Energia's district heating network in ...

Jan 16, 2025 · Elisa will manage the charging activity of a 100MWh "Sand Battery" project in Finland, optimising its activity in the reserve market.

Jun 11, 2024 · Image: Elisa. Telecoms specialist Elisa is deploying battery and PV systems at base towers in Finland, which will "implement virtual power plant (VPP) optimisation of locally ...

Nov 9, 2024 · As Europe's battery energy storage system (BESS) market rapidly expands, battery capacity has now surpassed 20 GW. While Norway once set ambitious goals to become the ...

Mar 5, 2025 · Finland's authorization of its largest battery-storage project marks a pivotal point in the renewable energy landscape. As energy ...

Oct 22, 2025 · A Smart Energy Solutions team develops a solution that utilises telecom tower batteries and novel digital solutions to optimise ...

Jan 23, 2025 · Nala Renewables, IFM Investors and Trafigura "s global renewable energy investment platform, is acquiring a 50MW battery ...

Feb 16, 2023 · The company will put the funding towards a rollout of its Distributed Energy Storage (DES) solution across its network with an expected total energy storage capacity of ...

Sep 1, 2022 · The world is rapidly adopting renewable energy alternatives at a remarkable rate to address the ever-increasing environmental crisis of CO2 emissions....

Jun 6, 2025 · This marks a significant development in a way that telecom operators can monetize their battery storage. Together, we are also bolstering Finland's national resilience and ...

4 hours ago · Only months after inaugurating the world's largest sand battery - a 1 MW/100 MWh thermal storage system - Polar Night has committed to building a project twice its size.
