

## Huawei s uninterrupted power supply market share in foreign communication base stations

## What is Huawei's share in the global communications equipment market?

Additionally, according to the latest statistics from market research firm Omdia, Huawei's share in the global communications equipment market (including small and large base stations) reached 31.3 percent last year, ranking first.

## What is the global uninterruptible power supply (UPS) market size?

The global uninterruptible power supply (UPS) market size is estimated at USD 9.53 billion in 2024 and is anticipated to reach around USD 14.27 billion by 2034, expanding at a CAGR of 4.12% from 2024 to 2034. By geography, the Asia Pacific accounts for the rapidly growing demand for UPS market.

## Is Huawei a leader in modular UPS innovation?

The report reveals that Huawei -- a leader in modular UPS innovation-- ranked first, globally, in terms of market share in 2020, retaining its leadership position worldwide. Ongoing Technological Breakthroughs

## How big is the uninterruptible power supply market in 2024?

These top companies collectively held over 55% of the market share in 2024. The uninterruptible power supply market size exceeded USD 12.1 billion in 2024 and is expected to grow at a CAGR of 5.6% from 2025 to 2034, driven by the rapid expansion of data centers fueled by cloud computing, AI workloads, and digital transformation efforts.

## What makes Huawei a good UPS system?

Its strength lies in integrated energy storage and grid interaction capabilities. Huawei offers modular,high-efficiency UPS systems optimized for data centers and telecom environments,with intelligent lithium battery solutions and AI-based predictive maintenance features.

## Is Huawei's modular UPS a good choice for data center power supply?

This achievement heralds a new era of ultra-high-density and efficiency for data center power supply. In addition, Huawei's modular UPS can be equipped with smart lithium batteries, which deliver ultra-high reliability, ultra-high power density, ultra-high efficiency, and super intelligence.
