

What are eco-ESS external battery & inverter enclosures?

Eco-ESS External Battery & Inverter Enclosures are designed to provide robust and secure housing for battery storage solutions outdoors. These enclosures are equipped with thermostatically controlled heating and cooling systems, ensuring your batteries remain within optimal temperature ranges, regardless of external weather conditions.

What makes a good inverter enclosure?

Easy Installation: Allows quick bolt-in installation. Appropriate mounting nuts all supplied. Vented Enclosure: Provides efficient ventilation to allow the best performance from your inverters. Corrosion Conscious Design: High quality powder coated Zinc Anneal enclosure.

Do Eco-ESS enclosures work with semi-solid state batteries & solinteg inverters?

Eco-ESS enclosures work perfectly with our Semi-Solid State Batteries and Solinteg Inverters. By providing a secure and stable environment, they help your energy storage and inverter solutions perform seamlessly, whether you're upgrading an existing system or building a new one from the ground up.
